Information on the implementation of audits, security, and privacy protocols

All voter registration applications received via the Automatic Voter Registration (AVR) process are processed using the same review and quality control procedures also in place for voter registration applications from any source.

Any efforts the Department of Elections and source agencies plan to make to improve the efficiency and effectiveness of the registration process, by source agency

Also, since the implementation of the AVR program in June 2023, the Department has also reviewed the Automatic Voter Registration (AVR) notification mailing format and content continuously since the implementation of the program, based on internal review and feedback from voters, and has revised the mailing to maximize clarity and effectiveness of the document.

Also, since the implementation of the AVR program in June 2023, the Department has also reviewed the Automatic Voter Registration (AVR) notification mailing format and content continuously since the implementation of the program, based on internal review and feedback from voters, and has revised the mailing to maximize clarity and effectiveness of the document.
